Directions to UOW

Approaching from the SOUTH

Follow the Princes Highway north through to Sutherland. Take the “Rawson Ave - Sutherland” Exit. You will see the facade of an old building on your left hand side at the turnoff. Immediately after the turnoff you will be on Rawson Ave, approximately 100 - 200m along Rawson Ave you will come to a very small roundabout - turn left at the roundabout and you will see the University of Wollongong building on your right hand side, it is a long brown two storey brick building.

Approaching from the NORTH

Follow the Princes Highway through to Kirrawee. You will pass a McDonalds on the right hand side (get into the right hand or middle lane) and you will very quickly see a large car dealership on the left hand side (Tynan Motors), there will also be a large green sign showing Wollongong to the left, and Sutherland straight ahead - continue straight ahead following the “Old Princes Hwy - Sutherland EXIT” signs. DO NOT TAKE THE WOLLONGONG EXIT!

Fairly quickly after you’ve passed Tynan Motors you will need to turn left at the sign that says “Old Princes Hwy - Sutherland Tramway Museum Loftus TAFE”

You will then come to a roundabout, take the second exit. You will then have a long row of shops on your left and the train tracks on your right - this road becomes Rawson Ave so follow it all of the way past the shops - going straight ahead through any roundabouts.

After the shops the road will become tree lined, you will pass the Sutherland Leisure centre on the left, and then the Army Reserve on the right. Soon after the Army Reserve you will come to another small roundabout and you will see three blue signs on the right "LOFTUS TAFE", "SSHED" and “UNIVERSITY OF WOLLONGONG". Turn right at the roundabout - and you will immediately see the University of Wollongong building on your right hand side. It is a two storey, long brown brick building.
