Note: Applicants must be 18 years of age by 1 March in their first year of study of the Bachelor of Business Administration (Hospitality).

BACHELOR OF BUSINESS ADMINISTRATION (EVENT MANAGEMENT)
PURPOSE OF THE PROGRAM
The Bachelor of Business Administration (Event Management) is delivered jointly by the University of Wollongong, Loftus Education Centre and TAFE NSW, Southern Sydney Institute's Sutherland College.

This integrated program provides students with the specialist practical skills and industry knowledge of a TAFE qualification as well as the theoretical and managerial skills of a University degree. This is an ideal combination that will prepare students to pursue a Management career in the Event Management industry.

Throughout this course students study both TAFE and University subjects concurrently and on completion will be awarded two qualifications:
• Bachelor of Business Administration (Event Management) from the University of Wollongong, and
• Diploma of Event Management from TAFE NSW

Students accepted into the program will study the following areas:
• Sales & Marketing
• Accounting
• Organisational Behaviour
• Law & Employment Relations
• Health, Safety & Security Management
• Event Concepts, Venues & Promotions
• Project Management
• Event Management Service
Plus TAFE subjects for the Diploma of Hospitality Management.

YEAR 3
• Consumer Behaviour
• Introductory Business Finance
• Services Marketing
• Organisational Behaviour
• Law & Employment Relations
• Health, Safety & Security Management
• Event Concepts, Venues & Promotions
• Project Management
• Event Management Service
Plus TAFE subjects for the Diploma of Hospitality Management.

Note: Applicants must be 18 years of age by 1 March in their first year of study of the Bachelor of Business Administration (Hospitality).

MASTER OF MANAGEMENT (MOM)
PURPOSE OF THE PROGRAM
The Master of Management provides an opportunity for managers or aspiring managers to enhance their career opportunities. This program aims to improve management and business performance through the development of key professional and personal skills.

The Master of Management degree consists of eight subjects, completed part-time over two years. The program has been designed for those who work full-time with classes being held one evening a week.

CAREER OPPORTUNITIES
This program is designed to widen and improve skills on the complex and specific issues impacting on business performance. It assists in the development of professionally orientated managerial competencies.

SAMPLE PROGRAM OF STUDY
Candidates are to complete 48 credit points of 900-level TBS or MGMT subjects as approved by the Course Coordinator. Below is a sample course structure only. Students should consult the University for more information.

YEAR 3
• Consumer Behaviour
• Introductory Business Finance
• Services Marketing
• Organisational Behaviour
• Law & Employment Relations
• Health, Safety & Security Management
• Event Concepts, Venues & Promotions
• Project Management
• Event Management Service

Loftus Education Centre
University of Wollongong Building
C/- TAFE NSW, Loftus Campus
Rawson Avenue
Loftus NSW 2232
The Loftus Education Centre is a joint initiative of the University of Wollongong and the Illawarra Institute of TAFE. Students attending Loftus Education Centre have access to a range of services and learning is supported by easy access to information technology.

Loftus Education Centre brings university education to the local community. Students enrolled in any of the programs offered at Loftus can take advantage of the opportunity to study with an internationally recognised institution without leaving their local area.

At the Centre you will learn in a friendly, student-centered environment, making full use of small work group tutorials, seminars and classes as well as linking with others across the network of UOW students.

STUDY AT A WORLD-CLASS UNIVERSITY

DEMONSTRATING EXCELLENCE IN TEACHING & LEARNING!

The University of Wollongong has been recognised as one of the top Australian universities for excellence in teaching performance under the ‘2006 Learning and Teaching Performance Fund’.

This data includes the percentage of UOW graduates in full-time employment, the percentage of graduates going on to further full-time study, pass rates, drop out rates, and feedback from students on skills acquisition, teaching performance and overall satisfaction.

1DEST 29 November 2005

A FIVE STAR EDUCATION

The University of Wollongong received the maximum five star rating in six key categories in the 2006 Australian Good Universities Guide, which ranks Australian universities over a range of criteria:

MORE FOR YOUR CAREER

The University of Wollongong has an ever-growing reputation for producing outstanding graduates who are in great demand by employers at home and internationally:

★★★★ Getting a Job
★★★★ Graduate Starting Salaries
★★★★ Positive Graduate Outcomes

We equip students with current and relevant skills for their studies and beyond, and were the first Australian university to make information technology skills compulsory for students.

MORE SATISFIED STUDENTS

Students are very satisfied with their UOW experience:

★★★★★★ Graduate Rating

This ranking is based on student satisfaction with the standard of teaching and skills obtained during their University experience.

MORE QUALITY STAFF

Our staff are among the most qualified in Australia:

★★★★★ Staff Qualifications

MORE RESEARCH

UOW is one of Australia’s most research intensive universities:

★★★★★ Research Intensity

Our focus on research intensity is carried into the classroom by our academics who are engaged in world-leading research projects, providing you with the opportunity to play an active role in the future. This five star ranking places UOW in an elite group of just eight universities at the top of this field.

LOFTUS EDUCATION CENTRE

On campus you will be given personal attention allowing you to concentrate on your studies. The Centre’s staff are friendly, easy to approach and are here to give you guidance throughout your degree.

For recent school leavers, attending one of our Centres can mean being able to stay at home, thus reducing the costs of attending university, maintaining your family support networks and continuing in local part-time employment.

The University of Wollongong’s Loftus Education Centre offers eligible students the opportunity to study a degree locally, as either a full-time or part-time student, while enjoying the benefits of being close to home.

STUDENT’S VIEW

JENNIFER HUDNALL
BACHELOR OF SCIENCE EDUCATION 3RD YEAR

Loftus is a very appealing campus because of its size and facilities. Each student is able to develop a personal relationship with lecturers. The facilities are very new and the best technology is available. I thought a smaller-campus would give me a better uni experience. The environment is relaxed and we all support one another.

‘The environment is relaxed and we all support one another’
FREQUENTLY ASKED QUESTIONS

HOW LONG WILL MY DEGREE TAKE?

If you are studying full-time, your degree will take three years to complete, except for the Bachelor of Mathematics Education and Bachelor of Science Education, which take four years. If you decide to study part-time, the length of time depends on the number of subjects you take per year. For example, if you decide to take half the normal load, a three-year full-time degree will take you six years.

HOW MUCH WILL IT COST TO STUDY?

In addition to your Student Contribution Amount (previously HECS) liability, there will be other small University fees (entitlement fees, student association fees). You will also need some money for study materials (books, paper, pens, photocopying, etc.).

For more information about Commonwealth Supported Places, student contributions and HECS-HELP loans visit www.goingtouni.gov.au

WHAT WILL IT BE LIKE TO STUDY AT THE CENTRE?

Studying at an Education Centre is quite different to being at a large university campus. At a larger campus some students may feel that they get lost in the crowd. At the Centre you will become part of a group, or team of students, studying and working directly with tutors, as well as independently. Studying through an Education Centre has more web-based interaction than is presently the case with study at a larger campus.

HOW DO I APPLY TO STUDY AT A UOW EDUCATION CENTRE?

NSW and ACT HSC Candidates – All NSW and ACT HSC candidates will be provided with application information and guidance by the Universities Admissions Centre (UAC). The UAI cut-offs are listed in the UAC Guide. These cut-offs are based on the previous year’s demand, and should be used as a guideline only. Students usually need to achieve the minimum UAI score that applies to their chosen degree.

Mature Age Students – The University defines Mature Age Students as those who are over 21 years of age on 1 March in the year they wish to commence university. For further information about the application process, or to request a brochure for Mature Age Students, contact UniAdvice on 1300 367 869 or visit: www.uow.edu.au/prospective/mature.html

WILL I COMPLETE MY ENTIRE DEGREE AT THE CENTRE, OR WILL I NEED TO ATTEND THE WOLLONGONG CAMPUS TO FINISH IT?

You can complete most degrees in their entirety at the Education Centre. However, for other degrees, you will begin the degree at the Centre and complete it at the Wollongong campus. Prospective students are encouraged to read the individual degree entries included in this document, or to contact the University for more information.

Applicants who have completed their HSC or who hold other qualifications from recognised institutions will be considered for entry. Entry to all of our degrees is competitive. Mature age students who undertake the Special Tertiary Admissions Test will also be considered.

Information about the test is detailed in the current UAC Guide and on the following web site: www.uac.edu.au/admin/stat.html

BONUS 3 UAI POINTS FOR HSC STUDENTS

If you have a UOW, or UOW Education Centre program as a UAC preference and you completed your HSC at a school within our regional area, your admissions rank (UAI) will automatically be increased by three points on the UAC system for University of Wollongong entry only. To check if you are eligible for this scheme visit: www.uow.edu.au/prospective/bonus.html

FACILITIES

The physical infrastructure of the campus is based on a co-location model, with the University and the Southern Sydney Institute of TAFE sharing the same campus. The two entities operate separately but share common facilities. Parking is available on campus, and the Education Centre is a short walk from Loftus train station.

FACILITIES AVAILABLE INCLUDE:

Library – in addition to the print and electronic resources available in the Library, computers are available for library research. Photocopying facilities are also available.

Computer laboratories – there are computers available for student use in both the University building and the Library. Computer and software training may also be arranged.

Canteen – takeaway food, drinks, coffee, tea, stationary and textbooks can be purchased from the canteen.

Learning assistance – is available for students in various areas relevant to their degree studies. Workshops include:

- Time management
- Reading and note taking
- Essay writing
- Structuring arguments and critical thinking
- Exam preparation and techniques

The University Careers Service – offers advice and guidance to students regarding their future employment options and study strategies.

SCHOLARSHIPS

A total of six scholarships are offered annually to students studying either the Bachelor of Mathematics Education in Bachelor of Science Education. Each scholarship is valued at up $6,000 over the four years duration of the degree. More information about these scholarships is available at: http://loftus.uow.edu.au/scholarship.html or by contacting Ravi Daga on 02 9545 0000 or ravi_daga@uow.edu.au

Students may also be eligible for other scholarships offered by the University of Wollongong including the Mature Age Scholarship. This scholarship provides $1,000 per year for the duration of an degree, and up to two scholarships are awarded annually at each of the UOW education centres. For further information on this and other scholarships offered by the University of Wollongong please visit: www.uow.edu.au/about/scholarships

STUDENT’S VIEW

SALLY BENNETT

BACHELOR OF MATHEMATICS EDUCATION 3RD YEAR

I chose Wollongong Uni because I was impressed with the teaching degrees they offered. In particular I liked the way Maths Education was provided at Loftus. The Maths degree and Diploma of Education are run at the same time, meaning I’m teaching right from first year rather than having to wait until fourth year. I love the size of Loftus, everyone seems to know each other, which is a lot less intimidating and much more friendly than larger campuses. The lectures also seem to be a lot more approachable.

‘I’m teaching right from first year rather than having to wait until fourth year’
STUDENT'S VIEW
MELISSA TURBULL
BACHELOR OF BUSINESS ADMINISTRATION
DEAN'S SCHOLAR (2017)

I chose the University of Wollongong because it is well known within the industry. The degree is very customer service based. The business side opens more opportunities for management positions. The TAFE and Uni combination gives an insight to the hospitality industry, especially being taught by people who have had experience within the industry. The smaller campus allows you to get to know everyone.

‘taught by people who have had experience within the industry’

PROGRAMS ON OFFER
BACHELOR OF SCIENCE
EDUCATION
PURPOSE OF THE PROGRAM
The Bachelor of Science Education course is designed to develop pre-service and educational training for teachers. The degree focuses on developing secondary school teachers as critical reflective practitioners with a sound basis of practical teaching skills. In addition, this degree also develops scientific concepts in a broad range of areas that can be applied in other community settings.

The degree is an innovative approach in providing students with both the scientific knowledge/training and the teaching and educational training in an integrated fashion.

Students accepted into the program will study the following areas:
- Educational Foundation Studies
- Curriculum & Pedagogy
- Discipline Studies in Science
- Teaching and Learning in Science

CAREER OPPORTUNITIES & EMPLOYERS
- Schools (NSW Department of Education & Training, and Interstate)
- Private/Independent Schools – NSW & Interstate
- Industry - using either the maths or the education or a combination.

SAMPLE PROGRAM OF STUDY
All students must complete the required number of credit points and satisfy all course requirements for the degree in which they are enrolled. The following is a sample course structure only and students should consult the University for further information.

YEAR 1 (ALL CORE, COMPELLARY)
- Education I
- Mathematics 1C Part 1 or Mathematics 1A Part 1
- Planed Earth
- Physics 1A & Physics 1B
- Introduction to Teaching & Learning
- Modern Perspectives in Science
- Earth, Environments and Resources
- Electives: choose one 200-level subject available from the General Schedule

YEAR 2 (ALL CORE, COMPELLARY)
- Education II
- Learners with Special Needs
- Different Educational Approaches
- Professional Maths Community I
- Introduction to Teaching & Learning (Includes practicum component)
- Information Technology for Education
